- AI Proficiency

I'm a practical front-end developer, proud of everything I work on. I take pride in building interesting web apps, debugging, and simplifying complex ideas. Skilled in JavaScript and the likes of React, Tailwind, WordPress etc.

Even grandmas would be impressed by the results I produce. Let's build the ultimate user experience through your platform.

In my spare time, I tinker with algorithms and AI to build my own games. Because what's more fun than making a computer do what you want it to do?
