- AI Proficiency

I'm a practical front-end developer, proud of everything I work on. I take pride in building interesting web apps, debugging, and simplifying complex ideas. Skilled in JavaScript and the likes of React, Tailwind, etc. Even grandmas would be impressed by the results I produce. Let's build the ultimate user experience through your platform.

In my spare time, I tinker with algorithms and AI to build my own games. Because what's more fun than making a computer do what you want it to do?
